

INFERNO INSTANT

STAND-ALONE SYSTEM : DATA SHEET

⇒ a defensive “panic alarm” sound barrier - to immediately force a threatening person to retreat

⇒ activated via a hard-wired button and/or a remote control unit carried on one’s person

⇒ 24/7 : also provides after-hours protection when installed onto an existing alarm system

⇒ compatible with all existing alarm systems, simple to retrofit and install.

⇒ generates an utterly intolerable

sound spectrum, broadcast at 125dB.

⇒ ultra-high Swedish quality & durability.

The Inferno Instant system provides round the clock protection for operations targeted 24 hours a day, regardless of whether the premises is open or closed. This system is most often deployed where intruders threaten employees in order to forcibly obtain money and/or products such as alcohol and cigarettes. Crime of this nature is often brazen and spontaneous, devoid of planning and thought. They are most often poorly prepared and ill-equipped to follow through on their threats. Activating the sound barrier will force the intruder to retreat immediately, thus defending both the employee, cash takings and valuable stock.

The Instant system comprises an Intenso sound barrier and a means of instantly activating the device. A hard-wired “panic button” is positioned in an easily accessed location (such as under the counter) and if desired, a remote control unit (similar to a car alarm

remote) is carried by the employee. This permits the sound barrier to be activated from any location in the protected area.

The core of this system is the Intenso sound barrier, the most widely deployed and successful Inferno sound barrier to date. It is immensely powerful, rugged and durable; whilst at the same time remaining discrete and inconspicuous.

TECHNICAL SUMMARY

Protective capability:	Up to 70m ²
Dimensions: (mm)	685 x 106 x 40
Weight:	1.7kg
Frequency range:	2 - 5kHz
Acoustic effect:	125 - 127dB (A)
Battery backup:	9.6V, 1800mAh, Ni-MH
Battery lifetime:	3 years
Power consumption:	12-16V DC, <150mA
Runtime:	> 30 minutes

The cost of an intrusion is directly proportional to the time available to the intruder. Forcing the intruder to exit immediately, empty-handed and without confrontation, is the ultimate solution in any intrusion.

SONIC SECURITY™

Inferno - intolerable to intruders.
